ADDITIONAL STAGE INFO

For additional stage information and specs, go to [Reardon Stage Specs](#) on the Anderson University website.

OTHER INFORMATION

HOUSE MIX POSITION

Touring companies may use a FOH mix position, approx. 21' x 9' and 68' from the edge of the apron.

INTERNET ACCESS

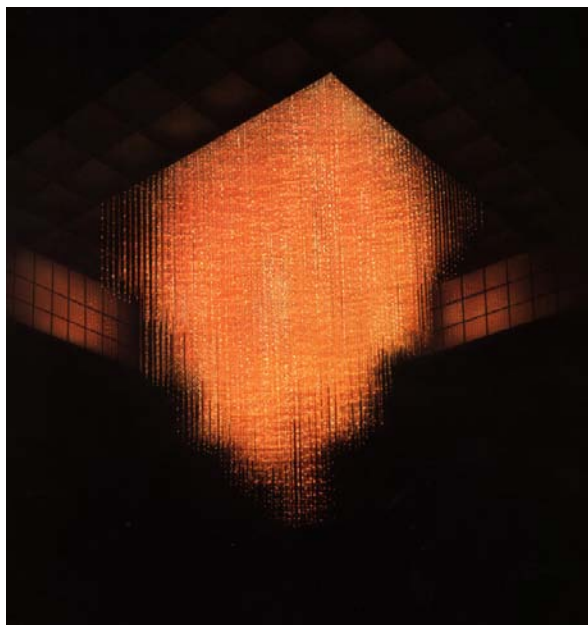

Wireless internet access is available through most of the building at Reardon Auditorium. Wireless or cell phones are not operable in the dressing room area.

DRESSING ROOMS

Dressing rooms are located in the basement under the stage as follows:

- Room #1, approximately 29' X 15'6"
- Room #2, approximately 26' X 23'7" (*a privacy divider can be pulled to make two smaller dressing rooms of equal size*)
- Room #3, approximately 19'4" X 18'3"

All dressing rooms are equipped with lighted mirrors, sinks, showers, monitors, and phone jacks (*phones must be pre-arranged*). Rooms #1 & #3 have private restrooms. Rooms have access to the House, Stage Right and Stage Left.

PRODUCTION OFFICE

Production Office space for touring companies is located in the Lobby balcony in the Reardon administrative offices.

The room is supplied with an outside phone line, fax line, and internet access.

BUS PARKING

Bus parking for several vehicles is available directly beside the Auditorium, between 20' to 50' from the stage door. 60A shore power for one bus is available. Electrician must be prearranged.

TRUCK PARKING

Truck parking in most cases will be in the West and/or South parking lots of the Auditorium.

ELEVATOR

There is no elevator in the Auditorium for access to the second floor or basement.
